

Community Action Groups Agree on Joint Campaign

On Thursday, 25 September 2008 representatives from Community Action, Residential and Environmental Groups from Eastern, Western and Central Melbourne met. The groups elected to work together to oppose the state government's plans for an East-West Tunnel and Toll Roads and to advocate for sustainable transport.

The meeting agreed on a joint campaign commencing with a community rally on Sunday, 26 October 2008 at noon at Flinders Street Station followed by a family picnic in the park.

Note the day and time in your diaries, tell your friends, get a group together, bring your placards and watch this space for further information.
